

**RPSEA Forum at the Colorado School of Mines  
Tuesday, November 14, 2006  
Golden, Colorado**

**Topic: Tight Gas, Shale Gas and Coalbed Methane**

**Program**

- 8:00: Coffee and muffins
- 8:30: Start meeting
- 8:30 - 9:00: Michael Ming, K. Stewart Energy Group - RPSEA mission and operations
- 9:00 - 9:20: Richard Starkey, Encana - The Jonah Field, Wyoming
- 9:20 - 9:40: Rick Sarg, CSM – The Hugoton Field
- 9:40 - 10:00: Steve Sonnenberg, Anadarko - Broad overview of gas-related R&D issues in the Rockies.
- 10:00 - 10:20: Carolyn Koh, CSM – Gas hydrates
- 10:20 - 10:30: Break
- 10:30 – 12:00: Multiple "elevator speeches" of 5 minutes each (including time for at least one question)
1. Mike Lewan, USGS - Major issues in gas organic geochemistry
  2. John Humphrey, CSM - Integrated petroleum systems analysis of Rocky Mountain basins
  3. Bob Cluff, Discovery Group - Gas storage in shales
  4. Bill Eustes, CSM - Low-impact drilling
  5. Jennifer Miskimins, CSM - Stimulation and completion
  6. Bob Siegfried, GTI - Gas research challenges
  7. Tom Davis, CSM - Seismic gas imaging
  8. John Curtis, CSM - Why are we doing this?
  9. Brook Phifer - PTTC's role in tech transfer
  10. Dag Nummedal, CSM – oil shale prospects
- 12:00 – 1:00: Lunch - convenors identify themes of break-out sessions
- 1:00 – 3:00: Individual break-out sessions
- 3:00 - 4:00: Reports back from break-out sessions and general discussion
- 4:00: Adjourn
